

Company Overview

Benefiting from the advanced machinery and equipment, Arka Trading Company is one of the greatest producers and exporters of leather in the Middle East. Relying upon the technical knowledge of our experts as well as using the best raw materials in the production of the leather accessories have not only maintained numerous customers and traders but also gained their satisfaction. Complete and exact supervision of all stages of production has led to the offering of high-quality products to the global markets based on international standards. Moreover, Arka intends to turn into a top brand in international markets by expanding its business interaction.

Business Description

Leather and leather products have long been popular items among people. Moreover, leather is a durable and natural material that is produced from animal skins and has many applications in various industries, especially clothing. The main products made from leather include bags, shoes, coats and overcoats, belts, upholstery and sofas, etc. The strength and other unique features of these products caused their widespread entry into the fashion industry; Hence, innumerable investors and traders have turned to trade in these products. The turnover of the leather industry in the world is assessed to be about 2.5 billion Euros per year, of which China is the largest producer of leather in the world with 80% supply, followed by Italy, India, Korea and Russia which rank next accordingly in the production of these products in the world. Benefiting from modern laboratories and advanced equipment, Arka Trading Company is one of the largest manufacturers and exporters of leather and its products in the Middle East.

Vision and values

Gaining a large share of the global market for leather and its products is one of the main visions of Arka Trading Company. In order to achieve this Vision, Arka has delineated some values as follows:
